

NEWS RELEASE

KLK EMMERICH'S GERMAN SITE RECEIVES EXCiPACT GMP & GDP CERTIFICATION AS PHARMACEUTICAL EXCIPIENT SUPPLIERS

Brussels, 7th February 2017

EXCiPACT asbl is delighted to announce that **KLK Emmerich GmbH** has recently been awarded an EXCiPACT Certificate from DQS, one of EXCiPACT's internationally-recognised Certification Bodies.

The Certificate demonstrates that **KLK Emmerich GmbH's site in Düsseldorf, Germany**, manufactures and distributes pharmaceutical excipients according to the EXCiPACT Good Manufacturing Practice (GMP) and Good Distribution Practice (GDP) Certification Standards. Its scope covers the manufacturing and distribution of Glycerine Edenor® G86 PH and Edenor® G 99,8 PH including filling of tank trucks, drums, IBC, storage and dispatch. of pharmaceutical excipients. For full details of all sites that have been EXCiPACT certified to date in **14 Countries** (Canada, China, Belgium, France, Germany, The Netherlands, India, Israel, Saudi Arabia, Singapore, Spain, Switzerland, UK and USA), see <http://www.excipact.org/certification/certificates/>

Both DQS and their auditors had to undergo a rigorous assessment process in order to be EXCiPACT Registered. This required the successful completion of the EXCiPACT Training Programme and post-course examination followed by an independently witnessed audit to verify that their competency was to the required standard. DQS also had to have their auditor's report verified by an independent certification board prior to issuing the certificate.

EU and U.S. pharmaceutical regulations require drug manufacturers to conduct either their own or commission 3rd party physical audits of all their starting material suppliers to demonstrate GMP and/or GDP compliance thus increasing the audit burden. Using GMP and GDP standards designed for excipients, the independent, high quality 3rd Party EXCiPACT Certification Scheme is already helping excipient users and suppliers to reduce their audit burden, save costs and assure quality.

Notes for the Editor

EXCiPACT asbl provides management oversight for a high quality, voluntary international EXCiPACT Certification Scheme that provides for independent 3rd party GMP and/or GDP certification of manufacturers, suppliers and distributors of pharmaceutical excipients worldwide. The Scheme will ensure patient safety through supplier quality while minimising the overall costs for assessing the excipient supply chain. It has been operational since early 2013 since when there has been considerable interest among pharmaceutical excipient suppliers, customers and regulators.
