

## PRESS RELEASE

### **Jiangxi Alpha Hi-tech Pharmaceutical Co., Ltd site in Pingxiang City, Jiangxi Province, China, RECEIVES EXCiPACT GMP CERTIFICATION AS PHARMACEUTICAL EXCIPIENT SUPPLIER**

**Brussels, 29 August 2024**

EXCiPACT is pleased to announce that **Jiangxi Alpha Hi-tech Pharmaceutical Co. Ltd., in Pingxiang City, Jiangxi Province, China**, has recently been awarded an EXCiPACT GMP Certificate from **SGS**, one of EXCiPACT's internationally recognised Certification Bodies.

The Certificate demonstrates that this site produces the following pharmaceutical excipients according to the 2021 EXCiPACT Certification Standard for Pharmaceutical Excipient Suppliers: Croscarmellose sodium, sodium stearyl fumarate, glyceryl dibehenate, polyvinyl alcohol, chlorobutanol hemihydrate, polyethylene oxide, partially neutralized polyacrylate, ethyl oleate, medium-chain triglycerides, dimethicone, benzyl alcohol, hydrogenated castor oil, butylated hydroxyanisole.

Both **SGS** and their auditors had to undergo a rigorous assessment process to be EXCiPACT Registered. Both have satisfied the additional EXCiPACT competency requirements set out in the EXCiPACT annex to the ISO/IEC 17021-1:2015 standard. These include completion of the EXCiPACT Auditor Training Course, post-course written examinations and independently witnessed audits to verify their competency to the required standard. **SGS** also had to have their auditors' reports verified by their independent certification board prior to issuing the certificates.

For full details of sites currently EXCiPACT certified in 20+ countries (including: Belgium, Canada, China, France, Germany, India, Israel, Italy, Japan, The Netherlands, UK, USA, ...), see: <http://www.excipact.org/certificate-holders.html>.

EU and US pharmaceutical regulations require drug manufacturers to conduct either their own or third-party physical risk assessment audits of all of their starting material suppliers to demonstrate GMP and/or GDP compliance thus increasing the audit burden. However, using GMP and GDP standards designed specifically for pharmaceutical excipients, EXCiPACT's voluntary, independent, high quality Certification Scheme helps pharmaceutical excipient users and their suppliers to demonstrate their commitment to GMP/GDP, reducing their audit burden and costs, to assure product quality.

#### Notes for the Editor

EXCiPACT provides management oversight for the voluntary, independent, high quality international EXCiPACT Certification Scheme that provides for independent 3rd party GMP and/or GDP certification of manufacturers, suppliers, and distributors of pharmaceutical excipients worldwide. The Scheme ensures patient safety through supplier quality while minimising the overall costs for assessing the excipient supply chain. It has been operational since early 2013 and there is now considerable interest among pharmaceutical excipient suppliers, customers, and regulators.
